Principal,
GDC Utersoo.

Subject: Teacher related feedback collected from the students and submission of report thereof.

Madam Principal,

As a regular practice, the Academic Monitoring Committee sought the feedback from the students vis-à-vis their teachers. As many as 10? subject teachers have submitted the same. The reports are attached for your perusal and necessary action.

The students were asked for the feedback on the following parameters:

1. Punctuality of the teacher
2. Mastery of the content
3. Syllabus completion
4. Smart boards
5. Availability of relevant material in the library
6. Improvements to be suggested in the teaching methodology, if any

Almost all the students are satisfied with the teaching methodology and the approach of the students. However, the following recommendations are put forth by the committee after analyzing the feedback:

1. Teachers must teach in slow speed and remedial classes must be arranged
2. Use of PPT must be increased
3. Specifically, for Mathematics, the students asked to increase the relevant material in the library.

Make the attendance more compulsory and automatically you will get more results and your teaching- learning will be more effective

by giving quiz test, remedial coaching, sequencing the curriculum and do some research projects at undergraduate level

No suggestions

My teaching experience has not been much but as far this college is concerned I think attendance remains a serious issue. I would suggest (in offline classes) setting a Minimum Required Attendance to sit in exams or some weightage of attendance in internal assessments. To avoid consequent drop outs we can set some leeways for the students having work liabilities at home.

11. What are your suggestions to improve the Teaching-learning transactions at the college?

9 responses

Steps should be taken to uplift dull students.

I believe that students should be involved in this process and the presentation skills should be inculcated among the students

We should follow Question ,Answer lecture

Personalise the learning experience of the students

Well,definitely the college should improve teaching-learning transactions by applying the modern and effective means of teaching-learning transaction

Beginning or last minutes of the class for discussion.
