Government of Jammu and Kashmir
**Higher Education Department**
Civil Secretariat, Jammu
***

Whereas, NEP 2020 envisions a complete overhaul and re-energizing of the higher education system to deliver high-quality higher education, with equity and inclusion and moving towards a more multidisciplinary undergraduate education and curriculum, pedagogy, assessment, and student support for enhanced student experiences, thus calling for redistribution of subjects, independent of any combination; and

Whereas, the proposed framework of NEP favours progressive specialization in one subject as the student progresses through the degree course; and

Whereas, the main concern vis-à-vis managing the faculty and student strength while progressing towards 3rd and 4th years of UG programmes needs an immediate attention; and

Whereas, the increased number of courses of major subjects will require enhanced number of faculty members as well as infrastructure in terms of separate class rooms for each course especially after $3^{rd}$ semester of the degree courses being offered under NEP from last academic session demands for rationalization of subjects; and

Whereas, the Department has approved major subjects based on the following parameters for each district which capture the delicate nature of some subjects in terms of societal outlook, presence of a subject atleast in one college in a district and gender equity:-

i. All major subjects shall be offered in the District.

ii. Wherever the enrollment in a Major subject is less than 40 in colleges located in Jammu/Srinagar/District head quarter and 25 in other colleges, the same is to be offered as minor subject thereby not withdrawing the subject/department but down scaling it to ensure that human resources and infrastructure requirements do not pose any major challenge in future. Depending upon future trends and departmental endeavors, the subject can regain the position of Major in subsequent years.

iii. Any Major subject falling below 25 enrollment in a district is to be retained as major in at least one lead college of district and in case of challenge of gender equity, then one each in Boys/Girls college.

iv. The minimum enrollment for offering a major subject in a college situated in Jammu/Srinagar/District Headquarter should be 40, however, the minimum enrollment in all other colleges should be 25 for offering a subject as major, subject to other conditions enumerated in this order.

v. Raising the level of enrollment to minimum 80 shall be Phase-II of rationalization for ensuring smooth implementation.

## REGULATION – III: GRADING SYSTEM

1) The definitions and description of Grades awarded, conversion of percentage and the marks converted into Grade points in a particular course/paper can be calculated with the help of Table 1,II and III below:

i. **Semester Grade Point Average (SGPA):** SGPA indicates the performance of a candidate in a given Semester. It is computed only when a candidate passes all the papers and obtains at least grade "P". It is calculated by dividing the total credit points earned by a candidate in all the courses by the total number of credits assigned to the paper/course in a semester.

ii. **Letter Grade/Grade Point:** It indicates the performance of a student in a paper/course described as Grade Letter or Grade Point as mentioned above. The candidate shall be declared as Fail in the paper in which he/she obtains less than 36% marks i.e., Letter Grade "F/Ab" and Grade Point "0".

iii. **Credit Point (CP):** Credit points are obtained by multiplying credits in a course with grade points:

   ***a. Credit Point = No. of Credits in a Course X Grade Point.***

2) Following procedure shall be adopted to compute the Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA):

i. The Semester Grade Point Average (SGPA) is the ratio of the sum of the product of the number of credits with the grade points scored by a student in all the courses taken by a student and the sum of the number of credits of all the courses undergone by a student, i.e., **SGPA** $(S_i) = I (C_i \times G_i) / IC$

(*Where $C_i$ is the number of credits of the $i^{th}$ course and $G_i$ is the grade point scored by the student in the $i^{th}$ course*).

**Table- II: Illustration for Computation of SGPA**

| Semester | Course | Credit | LetterGrade | Grade Point (Gi) | Credit Point (Credit x Grade) |
|---|---|---|---|---|---|
| I | Course 1 | 3 | A | 8 | 3 x 8 = 24 |
| I | Course 2 | 4 | B$^+$ | 7 | 4 x 7 = 28 |
| I | Course 3 | 3 | B | 6 | 3 x 6 = 18 |
| I | Course 4 | 3 | O | 10 | 3 x 10 = 30 |
| I | Course 5 | 3 | C | 5 | 3 x 5 = 15 |
| I | Course 6 | 4 | B | 6 | 4 x 6 = 24 |
| | | **20** | | | Σ=139 |
| | **SGPA** | | | | 139/20=**6.95** |

ii. The *Cumulative Grade Point Average (CGPA)* is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e. **CGPA** = $I(C_i \times S_i) / IC_i$

(*Where $S_i$ is the SGPA of the $I^{th}$ Semester and $C_i$ is the total number of credits in that semester*).

**Table- III: Example for Computation of CGPA**

| Semester 1 | Semester 2 | Semester 3 | Semester 4 | Semester 5 | Semester 6 | Semester 7 | Semester 8 |
|---|---|---|---|---|---|---|---|
| Credit: 26 SGPA:6.9 | Credit: 26 SGPA:7.8 | Credit:22 SGPA:5.6 | Credit: 20 SGPA:6.0 | Credit: 20 SGPA: 6.3 | Credit 20 SGPA 8.0 | Credit: 20 SGPA: 8.2 | Credit 20 SGPA 8.5 |
| CGPA= **7. 16** = (26 x 6.9 + 26 x 7.8 + 22 x 5.6 + 20 x 6.0 + 20 x 6.3 + 20 x 8.0+ 20 x 8.2 + 20 x 8.5)/174 | | | | | | | |

4) *Percentage to Grade/Grade Letter and Grade Point Conversion*: Absolute grading would be used where the marks obtained are converted into grades based on pre-determined class intervals. To implement the grading system, the University shall use the following UGC recommended 10-point grading system:

   i. A student obtaining Grade (F) shall be considered failed and will be required to reappear in the examination as per existing rules of the university under semester system for under graduate courses.

   ii. Grade (D) or 36% is the minimum pass percentage of marks in a course, SGPA of 4 to qualify a semester and a minimum CGPA of 4 to qualify for a UG Degree/Diploma/Certificate Course.
   *Explanation*: Calculation of Semester grade Point Average i.e., SGPA is the grade point received in a particular semester by a candidate,

   iii. Cumulative Grade Point Average i.e., CGPA is the average grade points obtained in all the semesters.

   iv. For calculation of Percentage of Marks, the following formulas are used:

a.  **SGPA = Credit Points earned in a Semester/Total Credits in a Semester.**

b.  **CGPA = Total Credit Points Earned in all Semesters/Total Credits of the Programme**

c.  **Percentage of Marks = CGPA x 10**

*Percentage to Grade/Grade Letter and Grade Point Conversion*

| Marks Percentage Range | Grade | Grade Letter | Grade Point |
|---|---|---|---|
| 90 to 100 | Outstanding | A+ | 10 |
| 80 to <90 | Excellent | A | 9 |
| 70 to <80 | Very Good | B+ | 8 |
| 60 to <70 | Good | B | 7 |
| 50 to <60 | Above Average | C+ | 6 |
| 40 to <50 | Average | C | 5 |
| 36 to <40 | Pass | D | 4 |
| <36 | Fail | F | 0 |
| 0 | Absent | Ab | 0 |

*(Note: 0.5 mark shall be treated as 1 mark and less than 0.5 mark omitted).*

# REGULATIONS

## CHOICE BASED CREDIT SYSTEM (CBCS):

The main feature of the Choice Based Credit System (CBCS) is to make undergraduate education student centric rather than system centric or teacher centric. For achieving these objectives, the CBCS strives to create a holistic syllabus. Thus in addition to dedicated focus on a discipline through core papers whether in an Honours Curriculum or a General curriculum, elective papers have been added which will give students the freedom to choose the allied/applied/broad areas of their discipline and also the areas of other disciplines of their interest. Further in keeping with the vision of the Government, special emphasis has been given to ability enhancement and skill development of students through elective courses under these domains which every student is required to study. However, in keeping with the spirit of CBCS here also the students will have complete freedom to choose these courses from a pool suggested by the UGC/University.

All papers except core papers offer complete freedom to the Universities in designing and reviewing the syllabi and enable them to offer their own distinct flavour and maintain their unique character. These elective papers provide them with the opportunity to develop competencies of students in their areas of strength, expertise and specialization. Even in the core papers under the guidelines 30% flexibility has been proposed in adopting the syllabus as per the template provided by the UGC. It is pertinent to point out that as per the existing education policy different institutions and universities are required to maintain 70% equivalence in the syllabi and the same has to be maintained under the system of CBCS.

The CBCS provides an opportunity for the students to choose courses from the prescribed courses comprising **Core, Elective and Skill Based Courses**. The courses shall be evaluated following a grading system. This will benefit the students to move across institutions both within India and across countries. The guidelines have been prescribed in order to bring uniformity in evaluation system and computation of the **Cumulative Grade Point Average (CGPA)** based on student's performance in examinations. **Outlines of Choice Based Credit System:**

1. A course, which should compulsorily be studied by a candidate as a core requirement is termed as a **Core[1] Course** or a **Discipline Specific Course (DSC)**. Number of Core Papers constituting a Course shall be **14** for all the Honours Programmes. Whereas for a General Programme in Science there shall be **12 Core Papers**. For General Programmes in Arts & Commerce there shall be only **8 Core Papers each**. Besides, there will be 2 Papers each of **General English and MIL** to be studied by all the students of General Programmes in Arts and Commerce as Compulsory Courses. The curriculum designed for courses under this category shall aim to cover the basics that a student is expected to imbibe in that particular discipline.

2. **Elective Course:** Generally a course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline/ subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill is called an **Elective Course.**

   2.1 **Discipline Specific Elective (DSE) Course(4 DSEs in all for Honours Courses and 2 DSEs related to each Core Course for General Courses)**: Elective courses offered under the main discipline/subject of study is referred to as Discipline Specific Elective. The lists provided under this category are suggestive in nature and each University has complete freedom to suggest their own papers under this category based on their expertise, specialization, requirements, scope and need. The University/Institute may also offer discipline related Elective courses of interdisciplinary nature (to be offered by main discipline/subject of study).

   2.2 **Dissertation/Project**: An elective course designed to acquire special/advanced knowledge, such as supplement study/support study to a project work, and a candidate studies such a course on his own with an advisory support by a teacher/faculty member is called dissertation/project.

   2.3 ***Generic Elective (GE) Course(2 each for B.A./B.Com. General Course and 4 for Honours Courses)**: An elective course chosen from an unrelated discipline/subject, with an intention to seek exposure beyond discipline/s of choice is called a Generic Elective. The purpose of this category of papers is to offer the students the option to explore disciplines of interest beyond the choices they make in Core and Discipline Specific Elective papers. The lists provided under this category are suggestive in nature and the respective Boards of Under-graduate Studies shall have complete freedom to suggest their own papers under this category based on the available expertise, specialization, requirements, scope and need.

3. **Ability Enhancement Courses (AECs):** The **Ability Enhancement (AE) Courses** may be of two kinds: **Ability Enhancement Compulsory Courses (AECCs) and Skill Enhancement Courses (SECs). "AECC"** Courses are the courses based upon the content that leads to Knowledge enhancement like;

---

[1]P.S.: *A Core course offered in a discipline/subject may be treated as a Generic Elective for other disciplines/subjects and vice versa and such electives may also be referred to as Generic Electives.*

i. Environmental Studies (EVS) and

ii. English Communication Skills (ECS)

These are mandatory for all disciplines. SECs are value-based and/or skill-based and are aimed at providing hands-on-training, competencies, skills, etc.

       3.1 Ability Enhancement Compulsory Courses (AECC): **Environmental Studies &English Communication Skills.**

       3.2 **Skill Enhancement Courses (SEC) (4 for Regular Courses and Minimum 2 for Honours Courses)**: These courses shall be chosen from a pool of courses designed to provide value-based and/or skill-based knowledge and shall contain both theory and lab/hands-on/training/field work. The main purpose of these courses is to provide students life-skills in hands-on mode so as to increase employability. The lists provided under this category are suggestive in nature and the respective Boards of Under-graduate Studies shall have complete freedom to suggest their own papers under this category based on the availability of expertise, specialization, requirements, scope and need.

4. **Practicals/Tutorials (One each with every Core and Discipline Specific / Generic Elective Course)**: The respective Boards of Under-graduate Studies shall have the freedom to add to/ subtract from the list suggested by UGC depending on their faculty and infrastructure available. Addition should. however, be of similar nature.

5. **Introducing Research Component in Under-Graduate Courses**

   **Project work/Dissertation** is considered as a special course involving application of knowledge in solving / analysing /exploring a real life situation / difficult problem. **A Project/Dissertation work would be of 6 credits.** A Project/Dissertation work may be given in lieu of a discipline specific elective paper.

6. Implementation:

   A. The implementation of the CBCS to follow a **Common Minimum Curriculum and syllabi of the Core papers** provided by the UGC. The allowed deviation from the syllabi being 30% at the maximum.

   B. University has the flexibility to **add to the list of elective papers prescribed by the UGC,** as per the available facilities.

   C. **Number of Core papers for UG Honours and UG Regular Courses has to be same across the** Universities.

   D. **Credit score earned by a student for any elective paper has to be included in the student's overall score tally irrespective of whether the paper is offered by the parent university (degree awarding university/institute) or not.**

   E. For the introduction of AE Courses, they may be divided into two categories:

      I. **AE Compulsory Courses (AECC):** The universities participating in CBCS system may have common curriculum for these papers. There may be one paper each in the 1st two Semesters viz.,(i) **English Communication, (ii) Environmental Studies.**

      II. Skill Enhancement Courses: The universities may decide the papers they may want to offer from a common pool of papers decided by UGC. Besides, the university also has the flexibility to add to the list suggested by UGC. The universities may offer one paper per semester for these courses.

   F. The University/Institute may plan the number of seats per elective paper as per the facilities and infrastructure available.

   G. An undergraduate degree with Honours in a discipline shall be awarded if a student completes **14 Core papers in that discipline, 2 Ability Enhancement Compulsory Courses (AECC), minimum of 2 Skill Enhancement Courses (SEC) and 4 papers each from a list of Discipline Specific Elective and Generic Elective papers,** respectively.

   H. An undergraduate degree in Science disciplines shall be awarded if a student completes **4 core papers each in three disciplines of choice, 2 Ability Enhancement Compulsory Courses (AECC), minimum 4 Skill Enhancement Courses (SEC)and 2 papers each from a list of Discipline Specific Elective papers** based on three disciplines of choice selected above, respectively.

   J. For the purpose of computation of work-load the following mechanism shall be adopted:

      *1 Credit = 1 Theory period of one hour duration per week for a minimum of 16 weeks. However, in case of Mathematics 2 Theory periods of one hour duration per week for a minimum of 16 weeks shall constitute 1 Credit.*

      *1 Credit = 1 Tutorial period of one hour duration per week for a minimum of 16 weeks.*

      *1 Credit = 1 Practical period of two hours duration per week for a minimum of 16 weeks.*

L. Wherever a University requires that an applicant for a particular M.A./M.Sc./Technical/Professional course should have studied a specific discipline at the undergraduate level, a requirement of obtaining 24 credits in the concerned discipline at the undergraduate level shall be deemed sufficient to satisfy such a requirement for admission to the M.A./M.Sc./Technical/Professional course.
