

Feedback of teachers- 2020

A feedback form was given to the teachers of this college by the IQAC and academic monitoring committee of the college to get feedback from the teachers. Following questions were posed to the teachers regarding some aspects like teaching, administration, academics, teaching methods, ICT facility etc.

- 1) How far you satisfied with the activity of Academic Monitoring Committee of the college:
- 2) Do you think that the university should make changes to the existing syllabus of the subject you teach? If yes, please enumerate the suggestions.
- 3) Do you suggest any changes to the methodology of Curriculum delivery at the institution? If yes, please have your say.
- 4) How do you evaluate your students?
- 5) Which mode of teaching do you enjoy the most?
- 6) Which mode of online teaching do you use the most?
- 7) Do you use the ICT facilities available at the college for curriculum delivery?

Different views of the teachers were analysed on the basis of their opinions. It was observed from the views of the teachers that new teaching methods should be incorporated in the teaching learning process on the patterns of the developed countries. College should be well equipped with the latest technological gadgets which are used in the teaching learning process like Smart classrooms, projectors etc. In addition some teachers talked about the updation of the library, besides focus should be given on the co-

curricular activities which is part and parcel of life. For the improvement of the teaching learning process college should adopt more on-line platforms of teaching, new teaching models should be incorporated in teaching. Furthermore, new inclusive academic writing practices should be adopted for enhancing assessment and feedback. Moreover, college should conduct seminars, debates which will help the students in refine their thoughts and skills.

In addition, the objective feedback was also received from the teaching-staff. It was also analysed automatically (report appended).

The feedback is described briefly below:

1. New teaching methods should be incorporated.
2. Sophisticated equipment's should be used in teaching learning process.
3. Co-curricular activities
4. College should conduct seminars, conferences and debates.
