Make the attendance more compulsory and automatically you will get more results and your teaching- learning will be more effective

by giving quiz test, remedial coaching, sequencing the curriculum and do some research projects at undergraduate level

No suggestions

My teaching experience has not been much but as far this college is concerned I think attendance remains a serious issue. I would suggest (in offline classes) setting a Minimum Required Attendance to sit in exams or some weightage of attendance in internal assessments. To avoid consequent drop outs we can set some leeways for the students having work liabilities at home.
